den 19 september 2019

## Remarks/additional information

This message is generated on behalf of all DUC members.  
With reference to REMIT Market Message ID 2733 the gas export from the Dan F platform to the F3-FB platform (connected to the NOGAT pipeline) will be initiated on 19th September 2019. From the said date and until approx. 1 July 2022 no gas export is expected from the Tyra East platform to Nybro. The expected flow capacity as of 19th September 2019 from DUC will be reduced to approx. 37,000 MWh/day.

If the schedule is revised, this message will be updated.

The image features a serene sunset or sunrise scene over a body of water. The sky is a gradient of deep blue at the top, transitioning through lighter blue and white clouds to a bright orange and yellow glow on the horizon. The water below is a dark, calm blue. Overlaid on this background is the text 'SWEDEGAS' in a large, white, stylized font. Below it, the same text 'SVVEDEGAS' is written in a smaller, similar font, with the 'V's being notably wider than the 'W' in the word above.
